

Why choose Dr. Yazdi as your surgeon ?

Knowledge:

Dr. Yazdi is a licensed Pediatric Dentist, having completed a 2 year post doctorate residency at UCLA. Furthermore, Dr. Yazdi has earned his Diplomate of the American Board of Laser Surgery. Dr. Yazdi routinely attends national and international conferences learning from other providers what is essential to bring you the functional effectiveness and safety your family deserves.

Experience:

Dr. Yazdi has performed thousands of frenectomies in the past 25 years; using a variety of lasers and laser wavelengths he continues to improve your care.

Dedication:

With decades of unwavering passion for relieving oral restrictions Dr. Yazdi has limited his thriving practice to solely the sub-specialty of infant frenectomies; furthermore he has from the ground up built the physical facility, Infant Frenectomy Center, to concentrate on provision of your healthcare.

Teamwork:

Our success rate depends on a community of dedicated health care professionals who are generous with their knowledge and skill. Our many previous patrons such as the parents of our patients have also left behind a trail of knowledge and good will illuminating what we could do better.
